

Mekad Limited

Provision of Online Accounting

with

accountsIQ

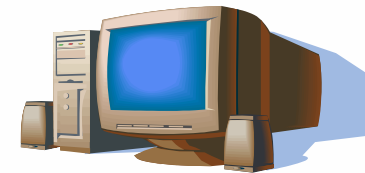

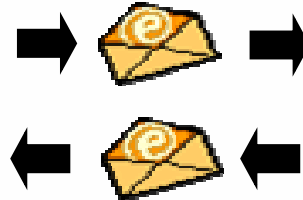

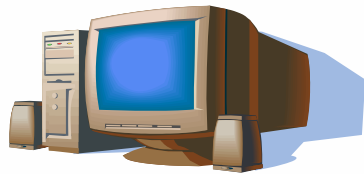

accountsIQ 

What is Online Accounting?

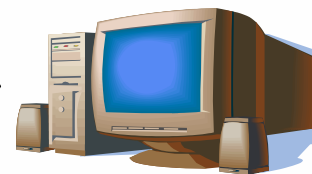

Client

Desktop systems rely on data being sent back & forth

Accountant

Hosted systems allow simultaneous access to live data

Why go Online? The Benefits

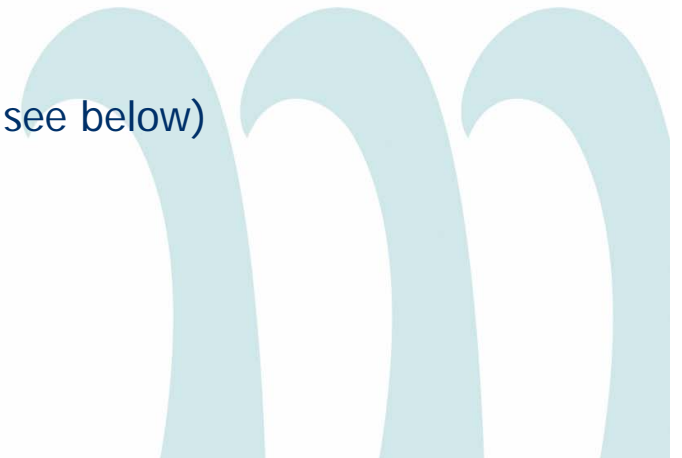

- Simultaneous anytime-anywhere access
- Real-time reporting & consulting
- Multiple independent companies on one platform
- Scalable solution minimises systems
- Software as a Service (“SaaS”) approach:
 - No software licenses to buy
 - No multiple versions of software
 - No servers to maintain, backups to carry out or new versions to install
 - Automatic disaster recovery
 - Flexible working (location and timing)

Why accountsIQ? Our USPs

- Full business management & reporting tool
- Multi jurisdiction, multi-currency platform
- Scalable (commercials, business intelligence, audit trail, technology)
- Flexible & Configurable (ledgers, non-financial data, reporting, roles & permissions)
- Management Layer (accountant specific)
- Branding (differentiates & drives loyalty)
- Document Management
- Technology (multi window, secure & robust – see below)

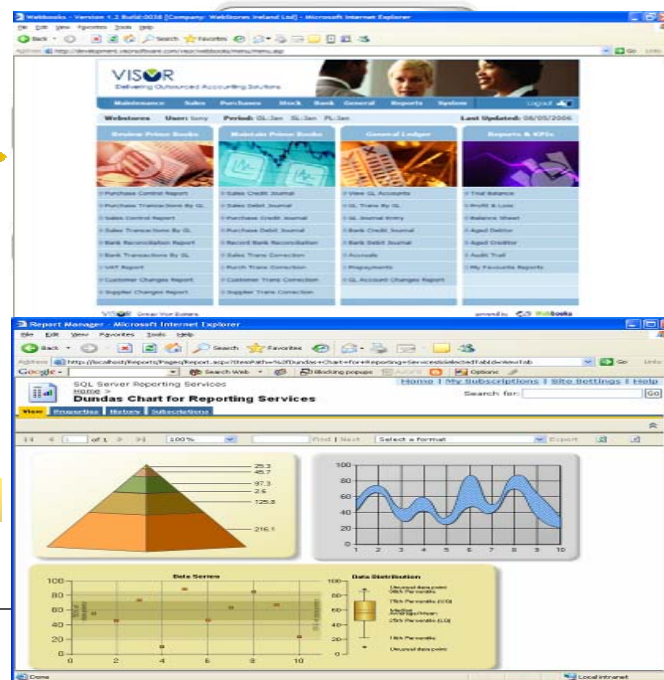

Simultaneous access to business results
